**EFFORT TO PROTECT INDUSTRY BEING MADE BY AGRICULTURE DEPARTMENT**

By Associated Press.  
Austin, Texas, Sept. 8.—Strict regulations governing shipment of citrus fruit trees in the "Winter Garden District of Texas" to protect its budding citrus industry from infestation were made out today by the State Department of Agriculture.  
J. M. Delcorto, plant pathologist announced that the prospective shippers of trees from any other section of the State must apply to the Department for a permit. After examination by an inspector, if no infestation is found on or near the trees, shipment can proceed. The Department, however, reserved the right to force defoliation and use of oil emulsion on shipments grown near areas known to be infested, regardless of whether the shipment itself is "clean."

## CHICAGO GIRL RED GIVEN STIFF FINE FOR RECENT PARADE

By Associated Press.  
Chicago, Sept. 8.—By way of giving her "a little lesson that may stop you from fighting," Judge William R. Petzer today assessed a fine of \$100 and costs against Aurora D'Angelo, the 18 year old high school girl who had led hundreds of men and women in two recent Sacco-Vanzetti demonstrations.  
The girl was placed on six months probation, however, as were three others arrested with

## GEOLOGIST AND COMPANION ARE BADLY BEATEN

**STUMBLED ON STILL IN OPERATION; ATTACKED BY MOONSHINERS**

By Associated Press.  
San Antonio, Texas, Sept. 8.—William S. Evans, a Leon Springs geologist, and a companion were severely beaten by moonshiners yesterday when they stumbled upon a still in the mesquite.  
Evans, weak from loss of blood, was found in front of the Federal building here at midnight. His companion has not been heard from and officers fear that he is lying in the brush some place, unable to move.  
Evans was bleeding from a number of wounds on the face and body. He was sent to a hospital.  
According to the information given officers, Evans and his friend were tramping through the hills near Leon Springs early Wednesday evening when they chanced upon a still in operation.  
There were several men at the place but Evans was unable to give the number. They attacked him and his friend immediately. Evans says his companion was wounded with birdshot. The geologist fought until unconscious from blows. He is not certain how he escaped.

## INTERNATIONAL DEMAND FOR BAN ON SPECTACULAR STUNT FLYING IS NOW BEING HEARD

By Associated Press.  
New York, Sept. 8.—An international demand for a check on spectacular airplane stunt flights followed today in the wake of the disappearance within the year of 18 trans-oceanic fliers and the death of seven men in overseas flight preparations.  
Statements of aviation authorities in this country and in Italy and press comment in England and Germany deprecated the feasibility of long distance over water hops, and contained protests against allowing aviators to fly into "foolhardy" adventures.

The reaction against spectacular flying became evident when six men and one woman were lost in the Dole trans-Pacific Derby and was emphasized with the disappearance of the monoplane Old Glory in the North Atlantic yesterday.  
Protests have been heard from the Guggenheim fund for the promotion of aeronautics, weather authorities here and in England, newspapers in some of the leading cities of the world; from William Randolph Hearst, backer of Old Glory flight, and of the Golden Eagle in which two men disappeared in the Dole Derby, and from friends and relatives of William S. Brock and Edward F. Schlee who face a hop across the Pacific before the end of their round the world flight.  
Harry Guggenheim, president of the Guggenheim fund, said yesterday he was blasting a new trail, but some of those who followed him were stunt flying, and aviation would be at least as well off if they had never flown.  
Detroit friends and relatives of Brock and Schlee appealed to the Navy to prohibit the proposed

## CANDIDATE FOR PRESIDENT MEXICO FACING BOYCOTT

By Associated Press.  
Mexico City, Sept. 8.—Mexican newspaper men at Vera Cruz have declared a boycott against Arnulfo R. Gomez, candidate for president of Mexico, and in a signed statement have refused to print in Vera Cruz or telegraph to any newspaper elsewhere, any news regarding him.  
The newspaper men assert that Gomez threatened and improperly criticized them. This Gomez has denied.  
Alvaro Obregon, after an extensive campaign tour, which he said was very successful, has arrived at Mexico City. He announces that he is confident he will be the next president of Mexico.

## MASTER MECHANIC OF KATY RAILROAD SLAIN AT LUBBOCK

**STEP-SON SURRENDERS TO OFFICERS AFTER SHOOTING; CAUSE NOT KNOWN**

By Associated Press.  
Lubbock, Texas, Sept. 8.—William Zattbuhel, about 40, master mechanic with the M. K. & T. railroad of Stamford, was shot to death in front of the Lubbock Hotel here today shortly after noon, dying almost instantly when two shots from a revolver took effect, one in the back of his head and the other in the chest just above the heart.  
Tom Jones, local real estate man and commission broker, step-son of the slain man, surrendered to the officers immediately following the shooting, and is being held, pending further investigation of the case.  
The cause of the shooting has not been learned.

## NEW HIGH PRICE PAID FOR CATTLE IN KANSAS CITY

By Associated Press.  
Kansas City, Sept. 8.—A new top price for all weights of cattle since the fall of 1925 was established at the Kansas City stock yards today when sixteen head, averaging 1431 pounds each, brought \$14.45 a hundred weight, more than \$207 a head. The previous top price this year was \$14.40, reached August 17 by heavy steers and yesterday by yearlings.  
The cattle were owned by W. R. Scudder of Kearney, Missouri.

## LITTLE HOPE IS HELD OUT FOR MEN IN BIG MONOPLANE

**SEA VERY ROUGH AND RAIN SQUALLS REPORTED OVER NORTH ATLANTIC**

By Associated Press.  
New York, Sept. 8.—Through wind-whipped, high running seas and cold rain squalls, three ships today continued to plough over the North Atlantic in search of the monoplane, Old Glory.  
Despite reports from two other steamers, which gave up their search last night, that there was little hope for survival of the three occupants of the plane, the liners Nova Scotia, American Merchant and California swept a stretch of hundreds of miles off New Foundland for a clue to the fate of the plane and its occupants.  
The steamers and Transylvania and Carmania, among the first to hear the distress calls, after vainly searching the ocean at the position where the plane was estimated to have come down, resumed their courses.  
The time set for Old Glory to span the ocean on her way from Old Orchard, Maine, to Rome passed with no news of her whereabouts or the fate of the pilots, Lloyd Bertaud and James D. Hill, and their passenger, Philip A. Payne, managing editor of the New York Daily Mirror.  
Old Glory should have arrived over Bordeaux, France, before Wednesday midnight, Eastern Standard time.

**Thirty Hours Pass.**  
Nearly 30 hours had elapsed this morning since the liner, ploughing their regular trans-Atlantic lanes in the darkness of the early hours of Wednesday, picked up the distress call.  
"WRHP—SOS, five hours out of New Foundland, east."  
"WRHP" was the plane's radio call. Its owner is W. R. Hearst. Search of the tumbling waters of the Atlantic, 500 miles off the New Foundland coast had brought no sign either of the plane or of the little rubber boat with which the fliers were equipped against just such an emergency as seems to have befallen.

**Liner Captain Says Hopeless.**  
Captain David W. Bone of the Cunard-Anchor liner, Transylvania, the vessel nearest the spot who raced his ship more than 80 miles to the estimated last position of the plane, reported regretfully last night: "Have searched area without results. Fuel little hope of survival in view of rough sea at this time of casualty."  
He was proceeding on his voyage, he added.  
Captain F. G. Brown of the Carmania reported strong rain squalls and rough breaking seas, and, like Captain Bone, considered there was "little chance of survival of collapsible boat under present conditions."

During the search for Old Glory out over the Atlantic, where the Rome-bound plane was last heard from, where Nungesser and Coll the brave Frenchmen, are believed to have gone down and into whose spaces the British St. Rhael with Princess Lowenstein-Wertheim aboard, vanished a week ago, another plane was winging its way to the east, unequipped with a radio with which to summon aid in case of emergency.  
**Heading Across Atlantic.**  
The Sir John Carling, manned by Captain Terry Tully, pilot, and Lieutenant James Medcalf, navigator, left Harbor Grace at 7:25 a. m. (Eastern Standard time) Wednesday, and was last seen heading across the Atlantic from Cape St. Francis, 30 miles away.

When they started, Tully and Medcalf were ignorant of the plight of Old Glory, but the local authorities at Harbor Grace placed in their map case, where they would soon find it, a brief message telling of the distress call. Experts expected the Sir John Carling, capable of a maximum speed of 131 miles an hour and a cruising speed of 116 miles to cover the 2,351 miles to London in from 20 to 24 hours.

**Prayers Offered For Safety Flyers**  
By Associated Press.  
New York, Sept. 8.—Prayers for the safety of Lloyd Bertaud, Philip Payne and James DeWitt Hill, of the missing monoplane, Old Glory, were offered this morning at a special mass celebrated in the lady's chapel of St. Patrick's Cathedral.

### A LONG WHILE LEARNING

Modern civilization is co-opera-  
tive. That is a good thing to re-  
member when reading the pessimis-  
tic statements in a lot of pam-  
phlets that are being thrown  
about.

Wherever exists a beautiful  
building or a big factory or a fine  
smooth road there is evidence  
that a lot of men who could save  
money and a lot of men who could  
think and plan and a lot of men  
who could work, all have been  
helping each other. Such struc-  
tures and achievements mean co-  
operation of the highest and finest  
type.

The ideal of good business is  
that every man shall have the  
chance to help in the best way he  
can. The inventor is a useful man,  
but some of the best inventors have  
been poor men. They cannot  
make the things they dreamed of  
until other men come to their aid.  
But the men who had money could  
not bring the inventor's idea with-  
out the aid of the men who were  
willing to do ordinary days' work.  
All these three would be at a  
standstill unless they were willing  
to help each other.

Some figures recently were issued  
about three of the largest con-  
cerns of the United States. To-  
gether they had 211,145 stockhold-  
ers. That means that all of these  
people had but in their savings  
to do business together and had  
contributed \$2,771,216,000, which  
was called the total capital. The  
business gave employment to al-  
most a half a million workers.  
Probably more than 2,500,000 peo-  
ple thus were supported and the  
wages that they drew amounted to  
almost three-quarters of a billion  
dollars.

These are the figures concerning  
the people immediately concerned  
in these big business interests.  
But because of these concerns,  
millions of other people also had  
jobs and earned money. And by  
what they are able to achieve, mil-  
lions upon millions of persons, not  
only in this country but all over  
the world, were able to make a  
living and enjoy comforts and lux-  
uries.

The world was a long while  
learning the way to play the game  
together, but the great mass of hu-  
manity had little property, little  
leisure and hardly any liberty un-  
til the method of co-operation was  
adopted. There is a lot of injustice  
and wrong left in the world still,  
but that exists merely where the  
ideal of the system have not been  
observed.

### FIGHTING OVER THE SPOILS

Distribution of the millions tak-  
en annually from the public by New  
York theatres continues to be a  
major question on Broadway and  
a matter of interest to the "big  
butter and egg men from the West"  
and others from the "sticks" who  
are paying the lion's share of the  
millions.

First the government, horrified  
at the disclosures that no tax has  
been paid on the overcharge, claims  
\$637,000 from the ticket agencies  
and theatres. Playwrights con-  
tend the excess in revenue is part  
of the gross receipts and want  
their share. The actors are calcu-  
lating what is due them. But  
there has been no suggestion of any  
refund to the public.

Meanwhile the suggestion that a  
way be found to prevent ticket  
gouging in the future is making  
little progress. Plan after plan  
has been advanced and as speedily  
discarded. The difficulty seems to  
be that every solution involves the  
practice of honesty on the part of  
those in control, and honesty in  
the theatre appears to be a strange  
or forgotten commodity.

The latest scheme calls for a  
board of control consisting of the  
box office men, ticket agencies,  
actors, dramatists, managers and a

representative of the public. The  
officially, it would seem, the  
distribution of tickets in a legiti-  
mate and equitable way. The  
system might work, but, if the pub-  
lic is to have only one vote, there  
appears to be no assurance that  
it will pay any less for theatre  
seats in the future than it has in  
the past.

Why all the fuss, anyway? Peo-  
ple who visit New York return  
home boasting the fine fashion in  
which they were "scorped" on  
Broadway, and if they don't com-  
plain nobody should. Haven't the  
New Yorkers said time and time  
again that not they but the "hicks  
from the hinterland" keep the  
lights of the "Great White Way"  
burning?

### MILITANT AGAINST COMMON CUP

Relentless warfare against the  
common cup as served in public  
drinking places is being waged by  
health officers of the county,  
states and cities, according to the  
General Health Bureau of New  
York City. These guardians of the  
public health are seeking to reduce  
the illness and deaths that result  
from drinking from unsanitary  
vessels and with their warnings  
they are coupling rigid inspection,  
more drastic regulations and se-  
vere penalties for violators.

In the forefront of the battle is  
Sergeant General Hugh S. Qui-  
rings, of the United States Public  
Health Service. He cites the dis-  
eases that might be transmitted  
by the common cup and these in-  
clude: Tuberculosis, pneumonia,  
monia, influenza, diphtheria, scarlet  
fever, whooping cough, measles,  
infantile paralysis, mumps and  
other ailments of the respiratory  
group.

### NOW EVERYBODY CAN GO UP.

The tailors have spoken. The  
correct flying costume for men will  
be a Norfolk coat and plus fours.  
The coat must have four buttons,  
the breast pockets must have flaps,  
and the trousers must be cut  
straight. The plus fours must be of  
the breeches design, with cuffs.

Multitudes may now take con-  
fidence in the air who, hitherto,  
before been weighted to the ground  
by fear of a sartorial faux pas.  
There is no need, hence, to wait  
for the "flying" pants to be made;  
the tailors have dispelled uncer-  
tainty, and cutting remarks are in  
order. The deuced style has many  
advantages. When the engine goes  
dead, father may step out of the  
plane hanging to the parachute,  
and the children hang to the frim-  
mer's Norfolk belt. If the parachute  
fails to open, the plus four will.  
The aviator's headgear, recom-  
mended by the tailors, may prove  
useful when coming back to earth.

The tailors have supplied a man-  
ifest need. Every other kind of  
expert has had a finger in the  
aviation pie. Meteorologists, psy-  
chologists, geographers, economists,  
sociologists, physiologists, and en-  
gineers—all have had their say, but  
the tailors have rightly said the  
last word.

### GREATNESS

There is much talk and specula-  
tion concerning the man who must  
be selected to succeed Judge Gary  
as chairman of the board of the  
enormously rich and powerful  
United States Steel Corporation.  
Senator David A. Reed, of Penn-  
sylvania is mentioned as a possi-  
bility. So is Pierre du Pont, of  
Wilmington, who is already a great  
power and influence in General  
Motors. Nathan L. Miller, former  
governor of New York, seems at  
the moment to be the most likely  
candidate.

Of one thing you may be sure,  
and that is that the man elected  
to direct the affairs of what many  
people regard as the most stable  
and powerful industrial corporation  
ever known will not be a talker, a  
poseur, a man of impulse, a player  
to the gallery or one unlikely to  
think at least three times before  
he translates an important deci-  
sion into action.

Big business has its own notions  
of greatness, and they differ from  
popular notions in many ways. It  
really likes modesty, and it de-  
mands stability of mind and char-  
acter. There probably is no king  
now working at his job who could  
have the chairmanship of the board  
of Steel. And, of course, the di-  
rectors wouldn't have a Mussolini.

Economy may be the watchword  
of the day, but it is two or three  
years since we saw a baseball  
wound with 15 cents' worth of bi-  
cycle tape.

One of the next jobs for science  
will be to prevent the emission of  
deadly gas by motor cars.

## GENERAL COUNSEL FOR ANTI-SALOON LEAGUE IS DEAD

By Associated Press.

Little Creek, Mich., Sept. 6.  
Wayne B. Wheeler, the full-time  
counsel for the Anti-Saloon League,  
died today at a sanitarium here  
after a long illness.

Thirty-three years of energetic  
labors in the cause of temperance  
were ended at a sanitarium here  
yesterday. The general counsel  
of the Anti-Saloon League, who  
had been ill for some time, died  
this morning at a sanitarium here  
after a long illness.

Heart disease, following prolonged  
treatment for kidney trouble,  
was the cause of death. Mr.  
Wheeler had come to the sanitarium  
last week from his summer home  
at Little Point Sable, Mich.,  
where he had been for some time.

## FUNERAL SERVICES FOR E. L. MALONE MONDAY AFTERNOON

By Associated Press.

Funeral services for E. L. Ma-  
lone, aged 53, former president of  
Corsicana, who died in Wichita  
Falls during the past week, were  
held from the home of H. B. Mc-  
Candless on West Fourth avenue  
Monday afternoon, Rev. J. How-  
ard Williams, pastor of the First  
Baptist church conducting the ser-  
vices. The remains were interred  
in the Duncan block in Oakwood  
cemetery.

The pallbearers were: C. F.  
Roberts, Joe Jefferson, Sam But-  
ler, Frank Taylor, Ralph Beard  
and W. A. Hammett.

Among those from other towns  
attending the funeral were: Mr.  
and Mrs. O. J. Meyer, Cross  
Plains; Mrs. Oscar Andrews, Ol-  
ney; Mrs. J. D. Wathern, Ama-  
rillo; Mrs. G. W. Mitchell, Waco;

## MANY COUNTIES SEEKING HIGHWAY BUILDING AID

By Associated Press.

Austin, Sept. 6.—Requests for  
aid and road building problems of  
53 Texas counties were heard by  
the State Highway Commission in  
its morning session today.

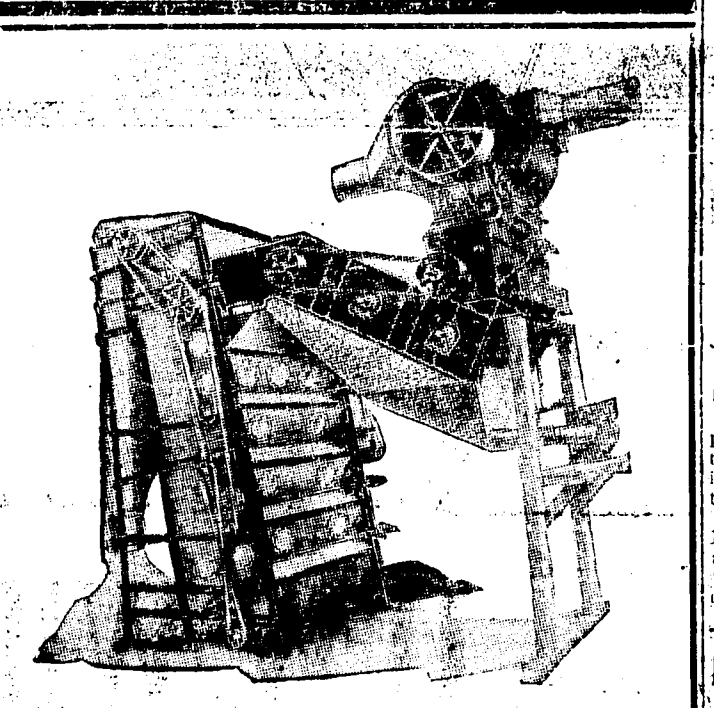

Only one grant was allowed,  
\$51,000 State and Federal aid for  
Laraca county for grading and  
construction of drainage struc-  
tures on fourteen miles of High-  
way 72.

Mrs. Jess Spencer of Gateville  
underwent a minor operation at  
the Navarro County Hospital  
Tuesday.

Mr. Wheeler was an in-  
terstate fighter.

Mr. Wheeler, who was born of  
his father's farm near Brookfield,  
Ohio, Nov. 10, 1869, once told re-  
porters that he formed his first ap-  
prehension to liquor when a drunk-  
en farmhand jabbed a pitchfork in-  
to his leg.

Mr. Wheeler will be buried  
Thursday in Columbus, Ohio, beside  
the wife whom he himself buried  
hardly more than a fortnight ago.

## Get More Money From Your Cotton

We have in operation at our modern gin plant, the  
famous HANCOCK COTTON PICKER—which adds from  
\$.25 to \$12.50 to the value of every bale put through  
it.

The HANCOCK improves the grade of field picked  
cotton and makes picked cotton out of snags and bot-  
tles. Its work has created a sensation everywhere be-  
cause it is a COTTON PICKER at THE GIN! There's  
nothing else in the world like it; no other machine has  
ever approached its class of work.

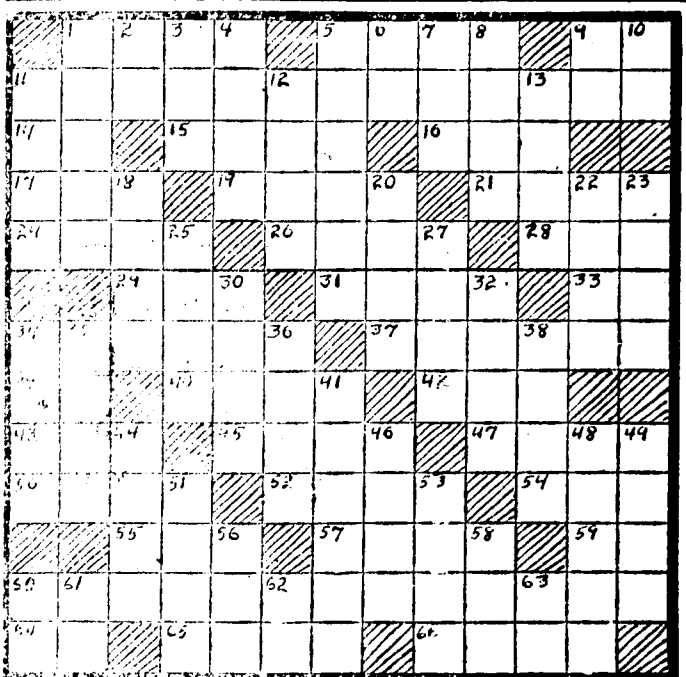

In addition to the HANCOCK COTTON PICKER, our  
gin plant is of the famous Murray Loose-Roll, High-  
Speed, Air-Blend type—which means it's the very last  
word in modern gin equipment.

Bring Us Your Cotton—It'll Mean Money in  
Your Pocket. A trial will convince you.

### ESTIMATE PLACES PRODUCTION ONLY 12,692,000 BALES

By Associated Press.  
New York, Sept. 8.—The price of cotton jumped \$10 a bale in the New York market today following the government September 1st forecast, indicating a yield about 800,000 bales less than was predicted in the estimate of August 1.  
Heavy realizing was absorbed on reactions of 90 to 95 points during the afternoon, and prices turned upward again in response to a renewal of buying accompanied by reports of increased foreign trade demand and firmer holdings of the Southern spot market.

By Associated Press.  
New Orleans, Sept. 8.—The government crop forecast sent all active trading months bulging to the full 200 point limit on the cotton market today.  
The forecast was a full half million bales lower than the trade expected and October, the first month called after forecast was made, rose 195 points, from 22.15 to 24.10. All other trading months rose the full limit of 200 points, 225 immediately after the call, October advanced the additional five points. The rise swept December to 24.15 and January 24.55.

By Associated Press.  
Washington, Sept. 8.—A decline of 800,000 bales in the prospective cotton crop this year occurred during August, the boll weevil being the dominating factor in the situation, the Department of Agriculture announced today in its September cotton report.

A forecast of 12,692,000 equivalent 500 pound bales was made by the Crop Reporting Board for this year's crop, as compared with 13,492,000 bales a month ago and 17,977,271 bales picked last year.  
"Propagation of the boll weevil has been accelerated by wet weather over much of the belt," the Crop Reporting Board said. "Infestation has increased materially in all infested areas, and the area where weevils are prevalent has extended northward materially during August. Present damage to squares and young bolls is very great, but more of the bottom crop escaped injury than in the years 1920 to 1923, when the total damage due to the boll weevils was very great."

"The present extent of the infestation has quite generally checked fruiting and the probability of any important top crop is small over large areas. In the Northern portion of the belt cool weather has not only favored propagation of the weevils, but has retarded the development of the crop."

By Associated Press.  
Washington, Sept. 8.—This year's cotton crop was forecast at 12,692,000 equivalent 500 pound bales by the Department of Agriculture today.  
The forecast was based on the September 1 condition of the crop, which was 56.1 per cent of a normal, and preliminary estimate of abandonment of acreage to September 1 which was 2,057,000 acres, or 4.3 per cent of the 12,683,000 acres in cultivation July 1. The acreage remaining for picking this year was placed at 49,626,000 acres.  
The condition indicates a yield of 149.3 pounds per acre. A month ago the condition was 69.5 per

## COUNTY OFFICIALS SIGNING HIGHWAY BONDS THIS WEEK

### PRELIMINARY WORK BEING GOTTEN OUT OF WAY FOR WORK ON ROADS

County officials are busy this week in the signing of the \$2,000,000 road bonds of Consolidated Road District No. 1, Navarro county, and indications are that the work will be completed early next week. The bonds are in the sum of \$1,000 each, making 2,000 bonds in the issue. The bonds were manufactured by the E. L. Stock & Company, Austin.

As soon as the signing of the bonds is completed, the bonds will be sent to the State Comptroller's office, Austin, where they will be registered and signed by the comptroller and then will be returned to county officials here and will be ready to be delivered to the purchasers of the bonds.

It is expected that as soon as the bonds have been returned to the local officials, the first \$200,000 in bonds maturing during the first five years will be delivered to the purchasers who were successful bidders recently. The remaining can be delivered as sold.

There are \$2,278,000 of the issue for the construction of a system of hard-surfaced roads in this district and the other is to retire outstanding bonds in the original districts Nos. 1 and 11.

Those signing the bonds are Warren A. Hicks, county judge; Frank B. Young, county clerk, and ex-officio clerk of the commissioners' court; Frank Mitchell, county treasurer.

McClendon and Burnell, county engineers, are making preliminary surveys on the Deane and Chaffield roads, lateral roads, in preparation for the beginning of the work in that department. It is probable that the engineering work on the cardinal highways on which State and Federal aid will be asked, will not be carried out other than preliminary work until the State and Federal engineers are ready to go over the proposed roads.

### Ice Cream Supper

There will be an ice cream supper at Roane Baptist church Friday night, Sept. 9. You are cordially invited to attend.

## MANY LEADERS OF ANTI-SALOON LEAGUE WHEELER'S FUNERAL

Columbus, Ohio, Sept. 8.—Anti-Saloon League leaders from all over the country today gathered here to attend funeral services for Wayne B. Wheeler, general counsel of the League, who died Monday.

The public was permitted to view the body as it lay in state at the Central Methodist Episcopal church from 11:30 a. m. to 1:45 p. m. A guard of honor was beside the body.

Burial was in Green Lawn cemetery beside his wife, who was buried there a few weeks ago at Little Point Sable, Michigan.

## FLOGGING JURORS STILL DEADLOCKED AFTER MANY HOURS

### JUDGE CONTINUES TO SEND MEN BACK TO DELIBERATE IN CASE

Tyler, Texas, Sept. 8.—Judge J. R. Warren of the Smith county district court, before whom Cain Anderson, Harrison county farmer, was tried on a charge of violating the anti-mask law, ordered the jury to continue its deliberations about 11 o'clock this morning, when it reported again it was deadlocked. The jury has had the case more than 37 hours.

### Another Case Is Ready for Anderson

Tyler, Texas, Sept. 8.—The jury in the Cain Anderson trial resumed its deliberations at 8 o'clock this morning in an event of a mistrial here of Anderson, who is charged with participation in the flogging near Marshall, June 8, of J. L. Richardson, his wife, and their daughter-in-law, Mrs. W. A. Straps, another case against him will be set in about two weeks, according to District Attorney John E. Taylor of Harrison county.

This case involves alleged attempts to bribe a State witness. Mr. Taylor said it probably will be brought before Judge P. O. Deane of Marshall, who sent the flogging trial here for trial.

## BELIEVED ROBBER KIDNAPPED TAXI DRIVER; ESCAPED

Fort Scott, Kans., Sept. 8.—A man believed to have been the bandit who yesterday shot and seriously wounded R. J. Jones, cashier of the Farmers and Merchants Bank at Rich Hill, Mo., during a robbery of the bank, kidnapped Miles Thompson, Fort Scott taxi driver, here last night, and departed westward in the latter's car.

Neither the car nor the driver had been heard from this morning. Sheriff Hessong, returning from the Uniontown fair met the taxicab going west, but had no occasion to suspect its occupants.

## MILDRED SCHOOLS WILL OPEN MONDAY FOR NEW SESSIONS

The Mildred public schools begin their 1927-28 session on Monday, Sept. 12, with the following faculty: Ernest C. Butler of Corsicana, principal; Mrs. V. McMurray of Corsicana in charge of the High School English; Miss Elsie Brashear of Temple, Miss Gladys Westmoreland of Waco, Miss Florence Grayson of Streetman, Miss Mattie Gunn of Eureka, Miss Ruby Crawford of Kerens, Miss Mary Wright of Dawson, and Miss Lucie Harwell of Corsicana, librarian.

It is hoped that a large majority of the patrons will be present at the morning session. The faculty and members of the board of trustees especially urge that the patrons be present at this time.

All pupils who expect to enroll in this school this year are requested to be present on Monday in order to receive proper classification before regular class work. Regular class work will begin on Wednesday.

The school buses will make their delivery to the school on the first morning of school, going the usual route of last year.

The kindergarten department will receive children who are past five years of age on Sept. 1, 1927. No tuition will be charged.

To those who cannot be with us on Monday, we invite you to assist us in every way to make our school a success. By proper cooperation between the faculty, patrons and board of directors, we can not fail. It is especially hoped that all will cooperate with us in the matter of regular attendance. Promotions are based on a term of nine months, and unless the pupil attends regularly, it will be impossible for it to make a grade.

Respectfully,  
H. G. CHANDLER,  
Superintendent.

## YOUTH CHARGED WITH MATRICIDE WAIVES EXTRADITION

By Associated Press.  
Seattle, Sept. 8.—Harry H. Hill, 22 year old son of a wealthy Seattle, Ill. surgeon, will go home voluntarily to stand trial as the murderer of his mother.

Defense attorneys announced today that the youth would waive extradition. The announcement followed conferences between the attorneys, the prisoner, who was arrested Saturday, and his father, Dr. H. C. Hill, who arrived yesterday by airplane.

## BROWNWOOD CITIZENS NOT SATISFIED WITH RECENT WATER GRANT

Brownwood, Texas, Sept. 6.—The board of directors of the Brownwood County Water Improvement District No. 1 disapproves of the grant made Friday by the State Board of Water Engineers and will take steps to secure a permit allowing the county to impound the amount of water requested, it was indicated following an executive session of the board Monday.

The permit given by the state board allowing only a part of the water asked for was studied by attorneys and engineers for the Brownwood project.

Judge C. L. McCartney, representing the local board, declined to say just what action would be taken, but declared that steps would be taken looking to the modification of the permit.

## SURVEYS ON ROADS OUT OF CORSICANA ARE NOW BEING MADE

McClendon & Purnell, county engineers, are busy in surveying the Drane and Chatfield roads in Consolidated Road District No. 1. Only preliminary surveys have been made.

After the surveys have been made and the wishes of the commissioners' court ascertained as to where the roads will be laid out, the engineering portion of the work can be finished in a short time and contract for the throwing up of the dumps let.

Bonds in the sum of \$2,600,000 have been voted in this district for the construction of a system of concrete roads.

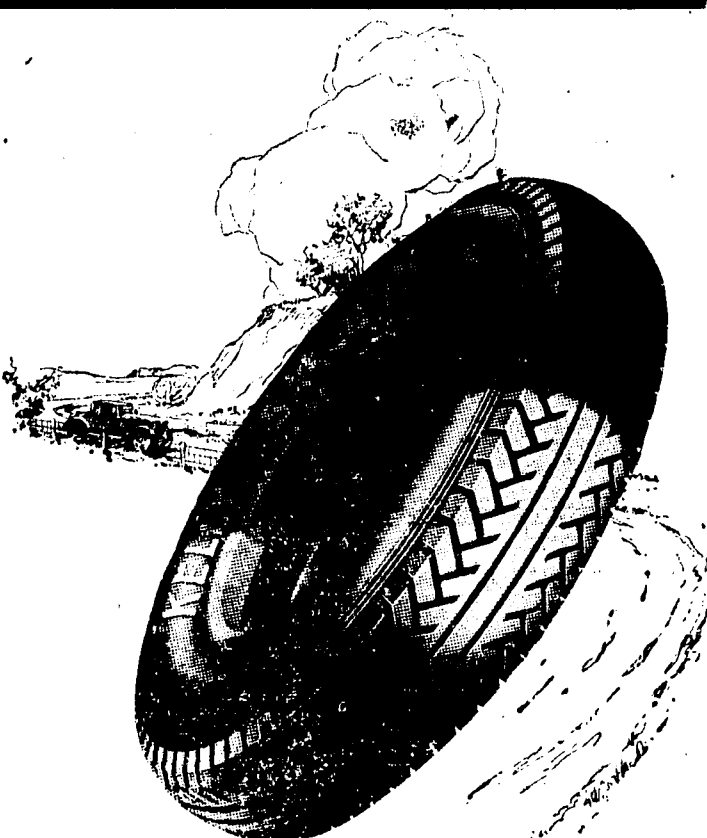

It will be necessary for the dumps to be traveled upon for several months before the placing of the concrete on them. No indication of the exact time can be forecast until the amount of fills in the various roads are known. In some instances, the dump may have to "set" for a year or more.

### CARD OF THANKS

We wish to take this means of thanking each and everyone of the many friends and relatives who were so good and kind in the hours of our sorrow during the illness and passing away of the husband and daddy who meant so much to us all.

The many things that you did and the many beautiful offerings you sent will never be forgotten and we pray that God will bless and take care of you, and that every day will bring sunshine and happiness into the lives of each of you.

Mrs. G. A. Bush and children.

## BIDS FOR HIGHWAY CONSTRUCTION WERE OPENED THURSDAY

By Associated Press.  
Austin, Texas, Sept. 8.—Bids for road construction in nine Texas counties and for maintenance work in 20 others were opened today by the State Highway Commission and awards were to be announced late today.

Baylor, Wichita, Montgomery, Carson, Webb, Wharton, Galveston, Harris and DeWitt counties are represented for construction. Counties in which maintenance work is to be done: Hunt, Cook, Hall, Dickens, Jeff Davis, Reeves, Runnels, Taylor, Comanche, Rusk, Upshur, Wood, Polk, Caldwell, Williamson, Val Verde, Milam, Robertson, Potter and Hidalgo.

W. R. Ely of Abilene, member of the commission, said he would move to reject all bids for Taylor county work on the ground that the county contemplates building a higher type highway than that planned in the maintenance project.

## MAN KILLED BY AUTO BELIEVED BE NAVARRO RESIDENT

A white man named either Frank Mitchell or Frank Mitchell was killed at Bryan, Texas, Tuesday when struck by an automobile driven by a young boy, according to information received here Wednesday, and the man is supposed to have formerly resided in Navarro county. Marshall & Dandys, undertakers at Bryan, are desirous of getting in touch with relatives of the deceased man who is about 30 years old and anyone knowing the whereabouts of relatives of the dead man are urged to get in touch with the Bryan undertakers.

The message received here stated that the man married near Madisonville, Texas.

## OLD TIMER HERE SEES PROSPERITY FOR CORSICANA

Corsicana Daily Sun.

I thought as I am an old settler and have had many ups and downs (but more ups than downs) that I might as well say something about Corsicana as I can see it ten years from today.

With the coming of our present good roads, our Junior college, and the many other improvements that will naturally follow I can see that Corsicana is destined to make one of the finest cities in the State. It has more advantages than any town in the State of its size. It is surrounded by the best country of any town in the State, with its many enterprising farmers.

It has one of the largest oil fields in the state; more money than any town in the State and our wealthy people too, are willing and ready to let go for any good enterprise. In fact, we have the biggest-hearted people I ever saw. Always on the alert to do good. And I believe in less than 5 years from this day, that every house in this town will be filled with people that are seeking to take advantage of our fine schools and the many other inducements that will be offered, and right here let me advise every one who is renting and does not own a home to make an effort to secure a lot and build a home while property is cheap, for the time is near at hand when property will be much higher. For my opinion is that we are now in the beginning of the biggest and the most substantial boom this country has ever witnessed.

On Sept. 2 the bridge across the Trinity between Fairfield and Palestine was opened up. That will help this county and will help Corsicana grow. Then the building of the bridge between Texas and Louisiana near Burkhville, Newton county,

will give us good roads and lots of travel from New Orleans through Jasper, Lutkin, Palestine, Corsicana, Dallas and other points north into Oklahoma. Believe me old Corsicana will surely be on the map as the best town in Texas.

I well remember the days when we had few people in this county and all of us traveled on horse back and on wagons. I have seen wagons bogged down on Beaton street, and too, I would take me one hour to drive from town to my home, one mile, with a span of good horses to a light buggy.

But it takes people and enterprising people to make a town and we have always had some of that kind and have lots of that kind today.

We also have churches of many denominations where people can go and worship.

Owing to bad health I can't get around among the people, but if we

all keep on pushing, Corsicana will be more than double in population in wealth in the next ten years.

Yours truly,

## RECOVERY OF OVER \$4,500,000 ALSO ASKED IN SUIT

By Associated Press.  
Austin, Texas, Sept. 6.—Challenging the correctness of another valuable oil land survey, the State filed suit in district court today for title to the 711 acres Mary Whitely survey of the Roxana Petroleum Company near Borger and sought an accounting for \$4,500,000 oil and gas receipts by the Phillips Petroleum Company and eighteen other oil concerns and individuals, now claiming the land or rights on it.

Last Thursday the State recovered title to 255 acres of Harris county oil land and judgment for receipts amounting estimated to run about \$6,000,000.

The suit filed today is to determine whether the northern line of the Whitely survey runs entirely up to the H. & T. C. block of River surveys in the north section of the area involved.

Action was brought partly to determine validity of the claims of three of the defendants, Durt B. Hinkley, Jr., Brownsville; E. B. Trigg, and Robert E. O'Keefe, both of Amarillo. Hinkley and O'Keefe are claiming they have acquired rights to all oil and gas permits covering the land involved under applications made to the State land office. Trigg claims that he has purchased or acquired the right to purchase the land outright from the State.

The suit seeks a court order requiring the defendant companies to file sworn statements of their oil and gas receipts from the Whitely survey and asks receiver-ship for the property.

Defendants are: J. A. and George A. Whittenburg, Potter county; E. B. Neil, D. and Graham B. Johnson, Cleveland county; Oklahoma; Montford T. and Edward B. Johnson, Potter county; Phillips Petroleum Company, Texas headquarters, Fort Worth; Devonian Oil Company, Amarillo; Gibson Oil Corporation, Amarillo; Midwest Exploration Company, Amarillo; Gulf Production Company, Houston; Marland Oil Company, Texas headquarters, Fort Worth; Ester P. Wiley, Roy C. Patton and Nannie Patton, all of Los Angeles county, California; and Hinkley, O'Keefe and Trigg.

The State's petition estimates that oil taken from the disputed survey during the time of alleged illegal possession by the defendants would be worth \$4,500,000 and gas \$200,000. On the other hand, the petition said that the "plaintiff is without accurate information as to the number of wells that have been drilled on said land," or as to the amount of oil and gas produced, or as to the proceeds from the production.

## WHAT FRANCE OWES TO AMERICAN LEGION TOLD IN ARTICLE

By Associated Press.  
Paris, Sept. 6.—What France owes to the American Legion is told by Marshall Foch in the simple but eloquent language of which he is master, in an article appearing in the Nassau issue of "Revue des Vivants."

After recounting, step by step, the "magnificent efforts" of the Americans during the World War, Gen. Foch writes:

"Today delegates of this great period have come back from America. For the first time the American Legion is going to hold its national convention outside American territory and it is going to be in France."

"After many years of peace, the defenders of a just cause want to live again the memories and emotions of the struggle, to see once more the places where they fought and conquered, to place wreaths on the graves of their comrades who died on the battlefields in this land of France, soaked with American blood."

"It is difficult to conceive of greater loyalty to the past, of attachment to that ideal common to our two nations which is being pursued by more resplendent humanity through work in peace and liberty."

"As in 1917, we cordially greet our American brothers in arms. Once more they are welcome among us. Our hearts beat in unison with theirs."

## NAVY ENDS SEARCH FOR SEVEN MISSING FLYERS IN PACIFIC

By Associated Press.  
San Diego, Calif., Sept. 6.—The last hope that searching American war craft would find trace of the missing Hawaiian fliers apparent by vanished today as the scout cruiser, Omaha, flag ship of Rear Admiral Luke McNamee, and the destroyers Paul Hamilton, Stoddert, Thompson, Kennedy, Somers and J. P. Barnes rested here on their arrival from Honolulu after searching an area approximately 450,000 square miles in extent. Admiral McNamee reported that not a single trace of the missing fliers was discovered.

Simultaneously with the return of the Omaha and the destroyers came word by radio from Rear Admiral Ridley McLean that two divisions of submarines had discontinued the search. The submarines are steaming from the 155th meridian for San Diego. They are due Thursday.

## SHOOTING STARTS AT CONFERENCE TO SETTLE DISPUTE

Associated Press.  
New York, Sept. 8. After a shooting affray in which a victim was killed, and started a riot in the club district of Fifth avenue, four men were dead, and a fifth was under arrest today.

The trouble started with failure to open a conference called to settle a real estate deal involving a building in the city.

In a rain of bullets that followed the conference one man was killed and another fatally wounded. A third human target in the building plunged nine stories to his death, his body striking and killing two pedestrians in West 42nd street, one fatally.

Charles M. Bernstein, 39, of Baltimore, a woman's dress dealer and a real estate operator, who corresponded to the police late last night, said after the shooting, "I was not the killer and I did not make a statement."

The dead ones:

ROBERT J. STEINBERG, 29, lawyer.

CHARLES HERSKOWITZ, 35, lawyer.

## HIGH TEMPERATURES REGISTERED IN GREAT LAKES AND MID-WEST

Chicago, Sept. 8. Three men died here following prostrations and countless thousands sweltered yesterday as a post-seasonal heat wave blanketed Middle Western and Great Lakes States.

The mercury rose to 86 in Chicago, three degrees less than the previous day's record-breaking 89, but Oklahoma City reported a high temperature of 94, and Evansville, Ind., Dodge City, Iowa, and Wichita, Kansas, all reported temperatures reaching 92 degrees.

While city dwellers fussed and fumed in an atmosphere that was hot and humid, the farmers were jubilant, and predictions for continued warm weather in most of the States in the corn belt met with their unanimous approval.

Due to an unusually late planting and an unusually late weather throughout the summer, the corn crop is from three to five weeks behind its normal growth, but with the weather of the past few days, the crop is expected to mature rapidly.

## Different Story In West Country

By Associated Press.  
Salt Lake City, Utah, Sept. 8. While some sections of the country were sweltering in unseasonable heat yesterday and last night residents of the inter-mountain country were thinking of filling coal bins and retrieving blankets from closets.

Temperatures last night ranged from 32 at Deseret, Utah, to 50 degrees here, Pocatello, Idaho, reported 36 and Boise 34. It was 28 at Yellowstone Park.

Peace Conference.  
Bernstein came from Baltimore yesterday evening to meet Steinberg, his attorney, Hershkowitz, who had leased two Sixth avenue loft buildings for him, and Cohen, agent for Hershkowitz. The conference was supposed to be an attempt to settle a suit for \$500,000, filed by Hershkowitz.

## SIXTEEN BUILDING PERMITS FOR PAST MONTH GO \$32,665

## FEARED CARLING PLANE LOST OVER ATLANTIC WASTES

By Associated Press.  
No trace had been found of Old Glory late today, the Sir John Carling was long overdue, and the Pride of Detroit had not been heard from since leaving Rangoon for a hop of less than 400 miles early this morning.

Ships still plowed the sea in search of the Rome-bound Old Glory, but hope had been practically abandoned for her three occupants.

Hope was still felt for the two pilots of the Sir John Carling, but the fact that it was several hours overdue and no word had been heard of it since it left New Foundland caused grave anxiety.

There was no general belief that mishap had befallen the Pride of Detroit, lack of information being widely attributed to lack of communication facilities along its course.

## Time Limit Passed On Gas Supply

By Associated Press.  
Belfast, Ireland, Sept. 8. At six o'clock this evening, British summer time, which was understood here to be the limit of the time that Sir John Carling's gas supply would last, no word whatever had been received concerning the whereabouts of the airplane.

Reports from various points in Ireland said that in view of the weather conditions there were grave fears for the safety of the plane.

## No Word From Sir John Carling

By Associated Press.  
Croydon, England, Sept. 8. It was stated at the Croydon airport at 11:25 a. m. that nothing had been heard of the airplane Sir John Carling since she left New Foundland yesterday. It was said that this fact was regarded as somewhat disquieting. An officer

## added that as the plane had not been reported over the coast of Ireland, she was considered overdue at noon.

Londoners Hopeful.  
London, Ont., Sept. 8.—Londoners today, although disquieted by the non-appearance of the monoplane, Sir John Carling, on schedule at London, England, were hopeful that the plane was merely suffering adverse winds and would eventually arrive in safety.

The committee in charge of the London to London flight, pointed out that the schedule which called for the plane's arrival at Croydon airport at 8 o'clock this morning, Eastern Standard time, did not take into account the possibility of "slow" flying weather.

Mrs. Terence Tully, wife of the pilot, would not believe her husband and Lieut. James McNeill, his navigator, had met with any grave mishap, and said she was confident the Sir John Carling would be heard from soon.

## SCHOOL BOARD IN SESSION DECIDE ON IMPORTANT MATTERS

At a meeting of the Corsicana School Board Monday the First State Bank was renamed the depository for school funds. This bank has been the depository for a number of years and was the only bank to bid this year. The bank will pay 4 per cent on daily balance and borrowed money will be secured at 7 per cent.

The board also set the school calendar for the 1927-28 session as follows:

School opening, Monday, September 12.

November 11, Armistice Day, holiday.

Circus day, holiday.

Thanksgiving and the day following, holidays.

The Christmas holidays will start at noon, December 22, and will continue until the morning of January 2.

February 22, Washington's Birthday, holiday.

April 21, San Jacinto Day, holiday.

School Commencement, May 25.

A number of routine matters were also disposed of.

## RENEWED HOPE FOR REDFERN STIRRED AS STEAMER TELLS OF SIGHTING HIS PLANE

By Associated Press.  
New Orleans, Sept. 6. Renewed hope that Paul Redfern had reached the South American mainland was expressed here today with the relation of details of sighting the plane by officers of the Norwegian steamship Christian Krogh.

The ship was proceeding from Port Au Spain, Trinidad, to Kingston, Jamaica, on August 26 when the drogue of the airplane motor was heard overhead officers said, "The plane dipped to within hailing distance and dropped a note enclosed."

A boat put off from the ship to receive the note, but before it had been recovered the flier had dropped a second and third. Each of the three requested that the ship could the flier have obtained a new supply of gasoline had his been denied the missives asked the ship.

He signaled. The third note was signed "Redfern, thanks."

They complied with his request officers said, pointing the ship westward and indicating to the flier that the nearest land was 200 miles away. The flier circled about the ship for about fifty minutes before wheeling the plane in the direction they had indicated and speeding away toward the mainland. The weather was perfect for flying, they said, and the motor seemed in perfect condition.

At the time the flier was sighted officers said, that the ship was 105 miles east of the Venezuelan coast and 100 miles from the group of islands of which Cayaguan and El Roque are the largest. On the three islands, they said, the flier had obtained a new supply of gasoline had his been denied the missives asked the ship.

## WEST TEXAS CHAMBER WILL CONTINUE FIGHT TO CANCEL POWER FIRM WATER GRANT

By Associated Press.  
Austin, Texas, Sept. 7.—Reconsideration of the granting of power development permits along the Colorado river to the Syndicate Power Company still will be sought by the West Texas Chamber of Commerce, despite the recent decision of the State Board of Water Engineers, which allowed in part permits asked by the Brown County Water District, Homer D. Wade, manager of the Chamber, said here today.

The board granted permits to the

district conditioned that plans for the impounding of 500,000 acre feet of water from tributaries of the Colorado must be cut to 125,000 acre feet.

"The West Texas Chamber of Commerce will continue to fight for two things, rehearing toward dissolution of permits given the Syndicate Power Company, and remedial legislation as soon as possible," Wade said.

He announced D. D. Coleman of Colorado as chairman of the organization's committee of 25 to carry on the water fight. The committee's report has not been presented.

## Meeting of Brown County Directors

By Associated Press.  
Brownwood, Sept. 7.—The board of directors of the Brown County Water Improvement District No. 1 are to meet late Wednesday afternoon to plan steps looking to a modification of the permit granted last week by the State Board of Water Engineers.

The directorate expresses itself as dissatisfied with the permit, \$1,600 to \$5,000 to servants, was which allows the district to im-

pound only a small part of the water requested. The fight may be taken to the courts or a modification may be asked from the State board. Attorneys for the district have declined to comment on action planned until after the meeting Wednesday.

## ARMOUR FORTUNE HAD DWINDLED TO MILLION DOLLARS

By Associated Press.  
Chicago, Sept. 6.—The will of J. Ogden Armour, who once was worth an estimated \$200,000,000, was filed today for probate, and disposed of an indicated estate of \$1,000,000.

The will left \$100,000 outright to his daughter, Lollia, now Mrs. John J. Mitchell, Jr., and an annuity of \$12,000 to her husband.

The remainder of the estate, except a few minor bequests of from left in trust for the benefit of the widow and daughter.

ANOTHER CORSICANA  
MUSICIAN HAS PART  
IN WINNING SONG

Paris, Texas, Sept. 8.—The "Song of Texas," by Miss K. M. Barton, set to music by Arthur Layton, was awarded first place in the district elimination contest authorized by the Legislature to select an official song for the State.

"Texas" with words and music by Mrs. W. A. Tynes of Cooper, received honorable mention. This was presented by a mixed chorus of ten voices.

Senator Charles R. Floyd of the Eighth District arranged for the contest, held here Wednesday at the First Methodist church, with Prof. J. Emory Shaw as chairman of the committee of five to judge the selections.

Miss Barton's song will be sent to Senator Margie Neal, chairman of the Legislature's committee.

Arthur Layton, who set the winning song to music in the Paris district, is a native of Corsicana, being the son of Mr. and Mrs. W. M. Layton of this city. He was a friend and boyhood chum of Joel Trimble, whose song won first place in this district at the Athens contest. Again it is shown that Corsicana musicians have merit wherever they are found.

"Heathenism in Corsicana Churches" was the subject of Rev. A. B. McReynolds' sermon at the First Christian Church Wednesday night. Interest is increasing and the attendance is growing at the revival services each night. The subject for Thursday night's sermon will be "A Sermon on a Raised Window Shade."

Taking his text from Leviticus 27:30, Rev. McReynolds scored the doctrine of personal ownership in the churches of America, asserting that the idea had been adopted from the heathen religions.

"Shall a man not do what he will call his own," is the creed of the majority of the church members of Corsicana and America according to the evangelist, and such teaching is not to be found in the Bible. He pointed out that the Bible taught that God was the owner of all things and that man was the mere possessor. But the majority today consider anything that they obtain legally, honestly and honorably as their private property.

The evangelist declared that the doctrine of ownership was not the only heathen practice of which the Christian churches are guilty, but that the way in which the churches were supported was worse than heathenism. The heathen vigorously followed out the tenets of their religion even to the extent of sacrificing their first born child, while the average church member only supports the church if he happens to think of it or has anything left after his own appetites are satisfied and his creditors paid.

Rev. McReynolds asserted that the "scrap system" of supporting our churches was one of the most abominable practices in existence. It violates all of the Biblical canons which say that a man shall give the first part of his earning to the Lord and not wait until he sees whether there will be anything left.

The tithe was pointed out as the only just portion of the age to be devoted to God and that it should be devoted to religious purposes and not used for everything. The Mosiac law inflicted a penalty of death for the failure to pay the tithe. "There are only two ways to support our churches," said Rev.

IDEAL TO FEATURE  
FALL FASHION SHOW  
ON TUESDAY NIGHT

The Ideal Theatre in co-operation with The Carter Fashion Shop will present a Fall Style Show Tuesday night on the stage of the regular feature picture.

The Carter Shop and The Big Four Shoe Store will display on living models the new Fall styles in gowns, hats, hose and shoes.

Local song and dance numbers will also be presented, and special music is being prepared by the Ideal orchestra and Miss Dickinson at the organ, who will play and sing a special illustrated slide number.

The show is being advertised extensively all over the county and many people are expected from the surrounding towns.

FIRE DESTROYED  
COTTAGE HOME ON  
THIRTIETH STREET

Fire damage, probably caused by rats gnawing matches in the attic at the house owned by W. L. Thompson and occupied by Lee Moss, 109 South Thirtieth street, Wednesday afternoon shortly before 4 o'clock was estimated at \$1,250, \$1,000 on the house and \$250 on the furniture owned by Mr. Moss. Mr. Thompson's loss on the house was partially covered by insurance, while Mr. Moss did not carry insurance on his household effects.

Well Known Kerens  
Couple Are Married

Special to the Sun. Kerens, Texas, Sept. 8.—Roy L. Crawford, son of Mr. and Mrs. B. B. Crawford, and Miss Minnie Mae Farris, daughter of Mr. and Mrs. Frank Farris, both local people and well known in this part of the county, were quietly married at the Methodist parsonage Monday afternoon at 5:30 o'clock. Rev. J. W. Sharbutt, pastor, officiating. Both the bride and groom, are well known in this community, having been reared here. Mr. Crawford attended the Kerens schools while the bride attended the Rural Shade school, 10 miles south of this city. This couple has many friends in the Rural Shade and Kerens communities, who wish them much happiness in wedded life.

PLANS COMPLETED  
FOR REVIVAL MEET  
FIRST METHODIST

REVIVAL WILL BE HELD ON LOT ADJOINING ELEVENTH AVENUE BAPTIST CHURCH

All details in connection with the revival services that will be given under the auspices of the First Methodist church have been worked out.

The meeting will open Monday night, September 12, and will start at 7:30. It will run for two weeks with services at night only and with arrangements for Sunday night services announced later.

Through the courtesy of the Eleventh Avenue Baptist church, the meeting will be held on their lot adjoining the church, corner Eleventh avenue and Fourteenth street. It will be an open air meeting with plenty of good seats, lights and good music.

The singing will be led by different ones, with Mrs. Joe Patterson and Jack and Frank Haslam having charge of this feature of the meeting.

The preaching will be done by various ministers. J. T. Newsom will open the meeting Monday night and preach the first sermon. Other preachers during the meeting will be Rev. F. P. Culver, Rev. Joe Patterson, Rev. A. W. Hall, Rev. M. A. Turner and preachers from the other churches of the city.

While this meeting will be under the auspices of the First Methodist church, it will be interdenominational with every one in the city invited, regardless of church affiliations.

All money for the meeting has been raised and no collections will be taken. The meeting is being held as a Laymen's movement of the First Methodist church.

The following committee has had charge of the activities: Seating—Frank Haslam. Location—C. C. Albritton and Frank Haslam. Lighting—J. H. Wooley. Finance—Boyce Martin. Miss Ina Mable Watts will preside at the piano and good singing is promised throughout the meeting.

## CORBET BAPTISTS THANKFUL AS NEW CHURCH COMPLETED

Corbet, Texas, September 5.—We, the members of the Baptist Church of Corbet, Tex., take this method of expressing our thanks to each and every one that made any contribution whatsoever, from the least to the greatest, toward the erection of our beautiful new church building. We are, indeed, proud of it, and justly so; for, it is the first home the Baptist Church of this community has ever had. We feel that it is the direct answer to our prayers, because we have often prayed with our pastor for a home for our church. Ah! how often we have heard him ask the Father to just let him live to see the little children of this place together with the church have a place to gather for the worship and praise of our Lord.

Last Sunday, Sept. 4, he, Bro. T. W. (Tom) Allman, lived to see his prayers answered: "Our" church was dedicated by him whom we have worked with for the past seven years. We had a great service and many visitors that came from Black Hills, Navarro Mills, and from all our surrounding neighbor communities.

The choir from the Navarro Mills Baptist church was present and sang in a great way some of the old songs that we enjoy so much. Bro. Allman delivered a very inspiring sermon about dedication, stressing the importance of the dedication of our souls to the service of God.

I do not think we should omit saying just a few words about our brother, Mr. Dulaney Roman, who served as chairman of the building committee. He was only converted during our last summer's protracted meeting, but he has been a faithful worker for God ever since. When he was appointed on this committee, he began working with all his might trying to fulfill all his plans as they were completed, and we are proud to number him among those that love the Lord in our community.

Again, we wish to thank all those that helped to make it possible for us to have this nice, comfortable church building, and we pray that God will bless you in every way. Respectfully and lovingly submitted by Mourene Hanks, reporter.

## FORMER CORSICANA NEGRO WOMAN GETS MEDICAL DEGREE

Recently widespread comment has been created as the result of a negro woman having received a degree in law, the comment being of a most favorable nature. Now Corsicana comes forward with a negro woman, native of this city, who holds a doctor's degree from the Chicago Medical School. She is Sarah Nunez, nee Sarah Barrow, born and reared in this city. She is the daughter of Josie Adams, wife of Frank Adams, both well known and respected members of their race in Corsicana. After graduating from the local negro high school, Sarah attended Oakwood Junior College in Huntsville, Ala., for two years, graduating in nursing. She returned to Corsicana and nursed in several of the prominent white homes of the city. She married the Rev. Mailand Gaston Nunez, a native of the West Indies, and pastor of the Seventh Day Adventist church here for a time, after which he came to Oklahoma City, then to Chicago in 1921. The couple have two boys, Don Carlos and Elliott Nunez.

Upon going to Chicago, Sarah Nunez entered the medical school there with the determination to become a full-fledged doctor of medicine. After six years of close application she graduated on Saturday, June 18, at the annual commencement exercises held in the Auditorium Hotel. From a class of 25 she was the only negro woman, there being three negro men, however. Her mother, Josie Adams, was with her at graduation time, having spent a month in Chicago, and the two grandsons returned to Corsicana with her to spend the summer.

Georgia Man Tells How He Found  
Relief for Many Complaints  
by Using An Old Home  
Remedy.

Athens, Ga.—"I have been married 61 years, and am the father of ten children," says Mr. J. C. E. Weatherford, R. F. D. "A," this city. "About the best home remedy I have ever found is Black-Draught. I can't remember when we haven't used it in the family, giving it to the children for colds and minor ills where a laxative is needed.

"We must have used Black-Draught for 40 years, anyway, and in that time we have tried it for many complaints. I would have felt, stupid feeling, and my head would ache and when I would lean over, I would get dizzy. I found that a couple of doses of Black-Draught would relieve this. I used to have gas on my stomach, and would spit up grease. Black-Draught relieved this.

"It is just an all-round good medicine. Now that I am 72 years old, have to take a laxative, and Black-Draught acts easy and gives me satisfaction."

## INITIAL STEP IS TAKEN FOR AUDITION CORSICANA SOON

As most people have recently learned, the Atwater-Kent Foundation of Philadelphia will stage a National Radio Audition within the next several weeks for the purpose of selecting the best singers among the young women and young men of the United States, and Corsicana is preparing to stage a local audition on the evening of Friday, Sept. 23, for the purpose of selecting a local representative in each contest to be entered in the State audition at Dallas.

Miss Dorothy Drane, prominent local musician and musical leader, has been named chairman of the committee in charge of the local audition for the purpose of selecting the best voice among the young women and young men of Corsicana and Navarro county. The age limit for contestants is 18 to 25 years, inclusive, and application for place on the program to be given on the night of Sept. 23 at some place yet to be selected must be made to Miss Drane. Miss Drane has named as the committee to assist in this local audition the following: Mesdames Lynne Wortham, E. M. Peik, Sr., Frank King, David Shepperson and Messrs. Edward Hearn, W. Roy Christian, Sidney Story, W. P. McCannan, Beauford Jester and Joel C. Trimble.

This committee met in the Chamber of Commerce headquarters Wednesday morning in answer to the call of the chairman, Miss Drane, and outlined plans for the event, which will not only be the means of giving some local singer an opportunity to rise in the musical world, but will also afford great pleasure to the music loving public, for it is planned to have a very interesting program on the date mentioned, Sept. 23, at which time some of the best young singers in the county will be heard and there is little doubt that there will be unearthed much latent musical talent in this way. After outlining the plans as set down by the Atwater-Kent Foundation as governing the National Radio Audition contests, local, State and District, Miss Drane announced that Mrs. David Shepperson would act as secretary-treasurer of the committee. She also named three sub-committees, as follows, and outlined the duties of each:

Survey Committee—Mrs. Lynne Wortham, chairman; Edward Hearn, Mrs. Frank King and Joel C. Trimble.

Audition Committee—W. P. McCannan, chairman; W. Roy Christian and Mrs. Edward M. Peik.

Publicity Committee—Sidney Story, chairman; Mrs. David Shepperson and Beauford Jester.

The principal qualifications for contestants are as follows: They must be between the ages of 18 and 25 years, inclusive; must never have been associated with a professional, theatrical or operatic company; must never have been paid principals in any concert outside their own States; must declare an intention to follow a musical career, and must be free from theatrical or musical contracts. This limitation permits choir singers to enter the auditions, even though they may have received financial compensation for singing in churches.

The awards for which the ten finalists will compete are as follows: First place, a gold decoration, \$5,000 in cash and two years' tuition in a leading American conservatory; for one young man and one young woman. Second place, \$2,000 in cash and one year's tuition for each. Third place, \$1,000 in cash and one year's tuition for each. Fourth place, \$500 in cash and fifth place, \$250 in cash for each.

The time limit for contestants to enter the local audition was set at noon Monday, September 19, which will give only time for the arrangement and printing of the program and ballots, the successful contestant to be chosen through votes of the audience on the night of the audition, which has been set for September 23. The time limit for local auditions is placed by the rules of the national contest at September 25, which is Sunday. The latest date practicable, it was set by the local committee, it was believed.

Other information in connection with this interesting event will appear in the Sun from time to time, and those desiring to enter are urged to see Miss Drane at once.

### Ice Cream Supper

There will be an ice cream supper at Purley Friday night, Sept. 9th. Benefit Cemetery Association. Everybody invited.
